

A Lifetime Finish

The latest technology is used in applying a baked on enamel gloss finish to our six standard colors, or any custom color selected. Standard colors include; white, hunter green, silver grey, almond, bronze and black. Alluminate™ Wood Rail finishes are fast becoming our most promising feature. **Cherry is now available as a stocked item for select top rails.** Approximate colors below:

Top Rail Configurations

All top rails are designed to work with our glass, picket, and cable railing systems. The illustrations below detail how each model of top rail intersects with each post size and stock color availability. Further information can be found online at www.CrystaliteInc.com.

Standard Rail Heights

36 inches - Residential

42 inches - Commercial

Custom heights available.

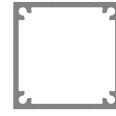

Grab Rails

Our 9000, 9001, and 9039 top rails can be used as a grab rail for residential stairs when required. A round auxiliary rail is available for commercial applications as well.

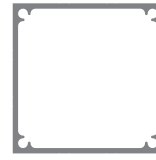

Note: adjustable corner posts not available in all colors.
