# SNOW LOAD SKYLIGHTS

## High-Load Skylight Structural Wet Stamp Letter Request

### Option A | Certified Loads

- Limited to 5842, 3962, and 5830 single lite skylight frames that are 4ft x 6ft (5074) or smaller in both directions.
- Available for skylight load requirements up to 310 lbs.
- Available for select skylight sizes for loads up to 330 lbs.
- Certification to the NAFS Standard [AAMA/WDMA/CSA/101/I.S.2/A440] will be provided with each skylight. Commonly referred to as 'AAMA Testing.'

#### Glazing Options

CrystaLite will determine the glazing make-up of the IG unit based on size of glass lite. We offer 2 options for the inner laminated lite.

**Check pricing and lead times prior to ordering.**  
Please indicate which glazing option(s) to utilize:

- FTL - Fully Tempered Laminate** (standard) featuring an 0.060" PVB inner-layer  
*requires 5 week lead time prior to standard ship date*
- SGP - Sentry Glass Plus** featuring a 0.090" polycarbonate inner-layer  
*requires 2 week lead time prior to standard ship date*

### Option B | Job Specific Calcs Required

Please provide the following information on your project. Our engineer uses this information to provide you with 2 original job specific wet stamped letters for your skylight(s). These letters can then be presented to the building officials as proof of acceptability. These letters will be mailed directly to the Dealer, who can then distribute them as required.

**Approximate 3 weeks lead time for calcs minimum.**

#### Glazing Options

CrystaLite will determine the glazing make-up of the IG unit based on size of glass lite. We offer 2 options for the inner laminated lite.

**Check pricing and lead times prior to ordering.**  
Please indicate which glazing option(s) to utilize:

- FTL - Fully Tempered Laminate** (standard) featuring an 0.060" PVB inner-layer  
*requires 5 week lead time prior to standard ship date*
- SGP - Sentry Glass Plus** featuring a 0.090" polycarbonate inner-layer  
*requires 2 week lead time prior to standard ship date*
